Dear Coach Widdins and the amazing athletes at Sterling Heights High School, ALF greatly appreciates all the hard work you did to raise awareness and selflessly wanted to share information with others about liver cancer. Your school must be most proud of your efforts and kudos to you all for achieving such a great success! We have shared your information with our development team and also shared your information with the local division. Thank you again for sharing all the info and photos and wish you all success! Sincerely, Cynthia Banya
